DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric J. Nuss, Reg. No. 40,106, on 18 January 2006.

The application has been amended as follows:

In the claims:

Claims 16-32 have been cancelled.

End of examiner's amendment.

Allowable Subject Matter

2. Claims 1-15 and 33-58 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the device of claim 1, in particular the amended limitation that the liquid crystal molecules have a substantially symmetrical bend structure orientation about a mid-point between the orientation films. The prior art does

not disclose this feature in combination with a cholesteric liquid crystal color filter on a light absorption layer as recited. Claim 1 is therefore allowed, as are its dependent claims 2-15.

The prior art does not disclose the device of claim 33, in particular the limitations that there is a cholesteric liquid crystal color filter and a layer of liquid crystal material having a first retardation value of $3\lambda/4$ with a first applied voltage and a second retardation value of $\lambda/4$ with a second applied voltage. Claim 33 is therefore allowed, as are its dependent claims 34-58.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
